The PA SBIRT Vision:
Ensure that every patient in our primary care clinics receives the right screening, brief intervention, and referral to treatment (SBIRT) services by the right providers every time.

WHO
Screening, Brief Intervention and Referral to Treatment (SBIRT) is a comprehensive, integrated, public health approach for early identification and intervention with patients whose patterns of alcohol and/or drug use put their health at risk.¹

WHAT
Screening, Brief Intervention and Referral to Treatment (SBIRT) is a comprehensive, integrated, public health approach for early identification and intervention with patients whose patterns of alcohol and/or drug use put their health at risk.¹

WHERE
Current PA SBIRT Project Sites
1. Sharon Medical Group Family Medicine
2. EMPOWER³ Center for Health
3. Altoona Family Physicians
4. UPMC Pregnancy Care Center
5. Forbes Family Medicine
6. Greenville Community Health Center

Over the course of the 5-year project period, PA SBIRT project sites will receive personalized training and technical assistance to seamlessly integrate SBIRT services into the clinical workflow.

WHEN
Over the course of the 5-year project period, PA SBIRT project sites will receive personalized training and technical assistance to seamlessly integrate SBIRT services into the clinical workflow.

HOW
PA has the 3rd highest drug overdose mortality rate in the U.S. (44.3 per 100,000).²

WHY
Only 6% of adults seeking SUD treatment in PA had access within two weeks.³

The PA SBIRT Vision:
Ensure that every patient in our primary care clinics receives the right screening, brief intervention, and referral to treatment (SBIRT) services by the right providers every time.
